1939 Gauge moved 40 yards E.

1940. n.p. imperfect: no record taken Jan-June.

Note: A recent letter shows that the measuring glass only registers .31 when it also should be .50 inch. Totals from Feb. 39 to Dec. 41 are affected. If a factor of 1.61 be used then amounts are reasonable except April 39 which becomes too high. (April 1942)
