1920 Houses South

March 1925. In reply to enquiring re low values Miss Dodds writes  
 "There has never been a drop of water in the outer can. The leak  
 was at the join of the funnel at the lower edge where it joined on to  
 the can and the water ran down the outside of this can. I think it  
 would only be in very heavy rains it would leak." (f. 5658 38/25)

1925/6 Not funnelled low.

1927. Impacted by R.H. Matthews see green file  
 G moved to new site 1/10/27.
