28.99 1/2 inch
 35.46 inch Nov & Dec
 from England

Notes: The above are records of rain only; snow does not appear to have been measured; e.g. in Dec. 1807, there is a note thus:— "The quantity of rain fallen this month is a little more than two inches, besides this we have had unusual falls of snow. Monthly Magazine, Vol. XLVI, p. 60. The gauge was removed from London Town to Hygate Hill in the Autumn of 1808.

The above totals differ from those given in Vol. XXXVII, p. 330 which are as follows:—

1802. 1803. 1804. 1805. 1806. 1807
 23.348. 26.398. 34.077. 25.000. 42.000. 26.000
