1863. I had in *Dead* *primroses* & *polyanthus* in bloom also *Veronica*. The goose had much bloom & wild strawberries were gathered the week before Christmas.

1868 Temp. during year unusually high but more especially so in D.D. the night minimum of which 37° - 30° S.B.

1869 The springs began to fail much earlier this year than last, in consequence I suppose of the depth to which the heat had penetrated, so that the large rain fall did not compensate for evaporation or loss.
