"It is remarkable how much less rain falls at Hoxingham (according to Lady Bayning's register) which is only 4 miles E of this. I speak most unphilosophically as my observations only extend over 10 months, but Lady Bayning assures me that it is no more than she expects as they often observe rainclouds over Mattishall divide and pass North and South of Mattishall - I am not sure whether this is not fancy as I often imagine that rainclouds divide a little W of me and pass to N and S of this place - J. M. D. B.
