1910 was 20 ft high 25 yds N

1917 new gauge

Extract abridged
from letter 1.1.17

"I have acquired another funnel & blue bottle, N. 3. I expect, anyhow a standard, but no name on it. Any home-made apparatus that I have used 20 years cost 6s 6d for funnel & 2 for test tube. I was a whisky bottle & painted a line down it & across one corner. Then put it on the scale & mark off ounces & do the same with my test tube. In the square corner of the bottle I mark bottles. I always use more too. My home-made lot is in a sheltered log, the standard in the middle of a lawn." W. L. W.
