?

1878 Gauge stands in a clear open space of lawn.

details of position

sent by Revd J.A. Prestwich  
instead of .50m and quoted figures which supported it to a certain extent

1879 My rain considerably exceeds M: Hedges, T: Clark  
 $\frac{3}{4}$  mile from here. He is much sheltered from the brunt  
 of the weather. Heavy rain in W. Cornwall means  
 heavy wind too so that trees or houses shelter  
 much further than in London or inland places.

Madron Church  $\frac{1}{4}$  mile N.
