✓ ✓ ✓ ✓ ✓

Jan 1/61. 4.50 is correct

✓ 1861 Jan 1st was principally dissolved snow, and what brings it to my recollection, I did not get my Barley crop from the fields until Jan 21. 1861, having been cut nearly 3 months.

We even had the snow to cast from the stocks in the fields in Sept. to get them dried, the crop was only fit for Jugs last year.

I am aware there was not so much snow north as south in that month, as in the past.
