November ...	1.30	2.90	1.77	
December	1.23	6.90	5.41	
TOTALS.....	2485	29.77	37.52	

I believe to more rain falls at Crommouth than here
Thunderstorms follow the hills and the rivers very well and
whale much there

1868 Finest Winter Spring and Summer ever known, no
usual Feb or July rains, but little snow, the springs lower
than ever known Wheat nearly all in in July grass crops not
bad after the rains from 17th to 26th of Aug. quite a new
spring, Dec. the wettest & windiest ever known

1869 I am confirmed in my belief that the telegraph wires
diminish the number of Thunder storms
