				C 1950	

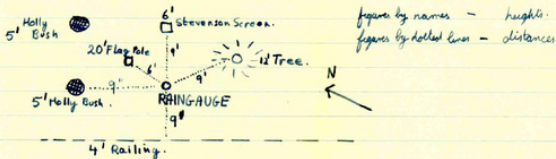

Rainfall Station No. 2492 / 7

Market Harborough Grammar School.

Nature of Objects Nearest the Gauge.

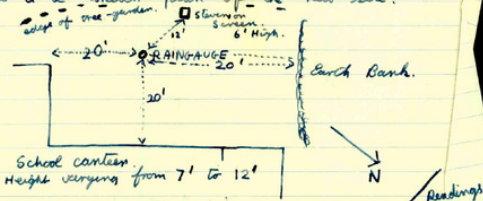

i) Before Move on 19th. Sept.

Positions are best explained by the diagram.

ii) After the readings were taken on 19th Sept the Raingauge had to be moved about 100 yards, because of building operations. The new site is more sheltered, but the other raingauge belonging to the school was placed in the old position for a time; On comparison the readings from the two sites differed very little.

Below is a sketch plan of the new site.

Readings from the other raingauge have not been submitted as it has been out of action for some considerable period. (2 months).

The New position is only temporary.

The raingauge was replaced by a new one on 17th Dec.
