1926. N. P. Row.

1920. Rejected 1976. 126. off. 40. NR. Rejected from Survey: 41' too low.

1925. Building 14 ft. high 18 ft. N. Gauge moved 30 yds. N. to more open site in June.

Totals low but observer says no defect in gauge (f. 698211/26)

inspected 7.4.27 & at edge of lawn, somewhat sheltered by house to north, & about 45'. Recommended moving a few yards further from house. The rainfall at Rover Cottage should be probably the same as that at Campfield & Redway Cottage. There was no apparent reason at time of the inspection for the low readings recorded in 1926. The only defects were the sheltered exposure to the down-slope, which I should not have expected to

Position of Station on reduced Ordnance Survey Map, 2 miles to 1 inch Series 8. No. of Map base used as large & different. Reference No. 205/27 (file 698211/26)
