1920. House 15' by 100' E
from file 565841/25. Quite inaccurate in 1924. Gauge was close to sea
embankment. Owing to alteration of shingle in front of the sea bank
spray came over the top of the embankment & a certain amount fell
into the gauge when the wind was heavy & during high tides. The
position of the gauge is now altered & gauge is approximately one mile
inland (2/11/25).

1925. House 25 ft. high, 30 ft. distance N.

1930. G. read 9 a.m. G. M. Y. & B.S.T.
