1954. G. installed 20th November. Not level - raised 19 (over) and set at 18". Recommended that tank will be modified: top to be at least level with rim of S., not above; outer hole to be sloped, not vertical.
 1956 Site moved 14.3.56 Jan. One year's overlap of new & old sites arranged Eng. 107A, 107B, 107C, 107D shows results: rainfall at new site a little more than old - probably due to overcatch of latter by growing trees.
 1960 Supp 7. G. coms. gauge too near screen but should be kept there; weather near gauge needs trimming. 5.10.60.

S. Liffha (also round new site)
