The S. Devon W. Bd succeeded the Kingsbridge & S. W. Bd after 1949. For 1956 they supplied the above figures from the old automatic gauge which is still retained to their new gauge (now S/M 1679/3) - at the Kingsbridge Plant - (Bridle Brook). The Engineer intends to discontinue their comparative readings after 1958. (A short distance downstream from the upper side of the Kingsbridge gauge was the new gauge of the S. Devon W. Bd - reported Mr C. H. Archer - min. 11.9 ft. 16/6/63)

1956 n.p. readings from old auto. gauge (not mentioned as used 1951-57) included on 10/9/60 for S/M 1679/3.

Snowdon never used - always anti-cyclonic.

Position of Station on Ordnance One-Inch map: No. of Map..... National Grid Reference 671629..

Date.	Lat. N.	Long.	Railway Station.	Distance Direction from gauge	Parish Church.	Distance Direction from gauge.
