Inspected 25.12.22 to on grass slope on top of flat hill with
 remains all around in distance. Ground slopes down immediately
 all around. S. over exposed; turf well essential two better
 faster in the immediate neighbourhood.

1930 Nothing done. In our letter of June 1931 we recommend erection of turf wall as values
 seem about 5" low. This to be done in summer 1931 if it does not interfere with
 grouse shooting see Enc 32^a of 660619/26.

N.B. Expected from Survey as 5" too low.
