							D	D	n.p.	e.		

Gauge not installed, site open to interference.

Just. The 1954 1.6.04. Unorthodox site but may be reasonable. Tower site with drop of 4' to river 9' N, 6' NW, 20' W. Good wind-break at a distance except to W where slight exposure. Present site is only one free from interference. Gauge subject to spray with strong wind at high-water. Flat. Barometer accurate measure but Trobar Condon available 1954. n.p. rather low.
