1913 Not printed - low.

Obs. with S.V. 14 (1) g. in same position for 8 yrs, though I think it maybe somewhat too sheltered. (2) It certainly is not leaking; the rain falls into a glass bottle inside the inner can, both of which are sound. (3) It is certainly a good deal exposed to sweeps of wind & I fancy this must be the cause of incorrect registers, if incorrect they are ... I always take the g. myself except when absent when they are taken by a trustworthy servant. I will move the g. into a better position if I can find one.

N.B. Annual values repeated from Survey Leaf, 1929.
