1861 July & August adopted from other reports

1866 Average for 10 yr. 23.34

On day of measurement the fall is reckoned to 8 ft
on the last day of the month, when the last day's fall
is peculiar notice is made of it

Character of surrounding country the Grange (till June) under
lating, thenceforward Field House undulating but with
houses & stools about 100 yds off in all directions

1866 - Mr. Sliff thinks his observations hopelessly wrong

1869 Mr. Sliff had his right arm broken in June so
was prevented taking his obs. regularly to a few weeks
afterwards a road was made through his garden
over his instruments modelled with
