1910 } It was suspected that a 5 in glass had been used with an 8 in gauge, but observer
 1911 } did not reply to enquiry 1912

Site inspected after removal of gauge by CS. 11.2.20. S. stood on bank of railway, embankment slopes E.N.W. 15 ft. down to road near railway bridge. The observer at Craig stated that this gauge was initially interfered with by railway employees & that this was certainly the cause of the large figures.
