Inspected 28.10.21 S. at W. end of Hardwood. some 20 yds S. of stream, on wooden shelter to S. but rather open to S.W. Should suggest rather too open but not very much so. Only shelter available would be near stream but probably too wet there in really wet weather.

Inspected 28.10.22 Plantation at same distance from gauge well made position excellent in a few years.

1930 No addition, surrounding trees now about 1' above rim of gauge. Soon to be moved to more open site. Co 324 14/06/1936. To be built in summer 1931 to be put in place between road & reservoir, to the East of West End Budge.
