St. Peter's Church, $\frac{1}{2}$ mile W.

Broadstairs Station $\frac{1}{2}$ mile E.

The gauge was originally in a more exposed place but sheltered by tall elms on the SW. about 30 yards away. Prior to the change the record was always less than St. Peter's (Rev. N. B. V. Snowden) but since the change the rain measured has been approximately the same or rather more. (probably x11.00 cs.)
