Gauge situated in small garden at rear of private house. Rather sheltered position but record agrees closely with gauge in more open position.

1945 Note of 1090 26 year daily record known been completed at Kew station

1948 Gauge situated in small garden rather sheltered position. No change for 27 years in position.

Still some doubts about 1949 R but original of SP 697335 would put March 1949 & as even more incompatible with 1953 more JAW 2/72
