November.....	2.66	5.13	1.07	2.07	3.14	2.85	1.52	.28	1.39	2.45	2.256
December.....	2.00	1.13	1.95	1.51	.57	1.36	1.97	1.97	4.90	3.33	2.069
TOTALS.....	32.30	21.72	26.60	23.40	18.66	30.58	31.75	26.50	25.76	25.98	26.333

During the earlier part of my record the gauge stood two or three inches lower than it does now. I am intending to remove it as it is within 18 ft. of the nearest branches of a good sized walnut tree, and a Wellingtonia gigantea now grown 12 ft. high the latter is on the S.W. side of the gauge.

1860 & blown over on 19th Aug. and some little rain lost.

1865 Sept. Rain fell on only one day the 20th or 21st.

1866 April 9th & having been moved away a small quantity probably about .10 was lost.

1867 Jan 5th Fall of snow lying on the ground to the depth of about 14 inches & some snow lost in bringing the gauge in to.

1867 July 26th 1.88 fell in less than 12 hours this is the heaviest fall I have recorded.

Nearly as low as any where in Croydon.

G. on grass having been moved on 24th of Oct. 1870
still on the same level but more open towards S. & S.W.

1875 Perhaps slightly sheltered by a small apple tree
on the S.W. in 1877 some branches 10ft high 4ft distant.

1878 Gauge only read 120 times during year.

From letter of Geo. Gordon to Campbell Bayard 27. II. 1911.

"In Southbridge Lane situated at the bottom of the hill on which
is The Waldrons and Bramley Hill. The estate is now built over."
