Imp. R. Glasspool 5/54. M.O. 1655/33. Very good site, possibly even better than the new Crookburn site (5/4 100 yds. from house; seems unlikely that snow should overaccumulate.);

Truly since house occupied - see inspection report (Lanarkshire folder).

1959. Gauge tested for leaks & found sound.

3 Turf well 1958

1952 Inspected by Mr. Glasspool on 2/22/52. Water in outlet can, fence good, King frame correct, excellent site, excellent observed.

Imp. R. Thomas 7/53. Satisfactory

Imp. Dr. Glasspool 5/54. Excellent site. Good turf wall. There seems little reason why snow should be over measured, but occasionally drifts might occur round gauge

* This gauge possibly transferred to new site & monthly readings, over, taken subsequently.

1955. Gauge lifted 1/10/55 causing to rising water level in channel. See how sheet in front of book.
