1946 Open moorland hills commencing 500 ft away.

00044

1947 Jan to Apr apportioned - hp. low

74000

1948 Record identical with 5066/3 except May & June. N.P. low.

Inspected 3.8.49 m.e.d. Site appears satisfactory. In deep N-S valley, but good shelter at a distance. Question of trip well to be revised after 12 months. Unsatisfactory records due to erratic readings (sometimes not read, but estimated from Craig Head). Regular readings to be arranged shortly. Protecting fence will be set up. Probably inaccessible in winter.
