1912 Record not taken, but supplied by a neighbouring Obsr. = Snowdon Hill.

Inspected C1. 8. XI.13 Good new copper snowdon standing at top of bank sloping to NW
 tall two NPS sheltering. This position was temporary during allocations and the
 old (BA) gauge was in good open position further SE than of this. Snowdon will
 be placed rather further SE, in a good place when possible. Also Beck Wilson dial
 at right angle.
