1921. log. addt. amounts for 2 days distributed.

1925 started S. wind at 8 p.m.

Gauge reported on post in narrow grass strip fringed with long grass;
 good flock to right & tall bushes on right of path; ground under
 deep to left to level grass ground.

inspected P. 12.3.26. Ground drops down to WNW
 but fairly good shelter all round. Exposure would be
 excellent if gauge set up 2 yds from slope & nearer
 house (to left in sketch) with wind left above ground.
