Note on 1930. Gauge previously in use at Levenmouth. It was set up on school playground - on undulating field behind the school building on 24/2/27. Owing to rising ground the gauge is almost level with roof of the school which is 100' E. The roof of the schoolhouse, 120' SE, is about 10' higher than gauge. No better site available which would not be subject to interference.
