Some last miss. that leads to east of end. which survives narrow path in

One 18' x 20' (posts) + 7 strands of twisted wire 3'-10' high rising ground to NW hand 1/2 ft. for 100-200' ^{then rise}
ground fall slightly to shed in E. which is 45' from gauge. grass to grow long on
S. side but a little in between.

There is no change. I see the hole

7. 6.14.6.6.6. Rev. A. B. Thurman. No change. Scute holes in outer & inner container of gauge - satisfactory.

1951. In process of being improved by growing experimental grass patches
that suitable development. The grass left long on 5 mil &
fine nitrogen fertilizer. improved 5/4/52

1952. Dug out about 100 holes in water containers (all also 1946) finally.
